

Reading can be one of the many fun activities children choose to fill their summer time. And research has shown it is also much more!

Children who participate in public library summer reading programs make achievement leaps during the summer.

ALSC reading lists are created by children's librarians as a resource to share with patrons, and may also be available in ebook, audio book, braille, and large print formats. Parents and caregivers are encouraged to explore this list to find resources that may match or spark their child's interest. Connect with your local library to find out what's happening this summer.
